In late summer of 1562, with handsome Lord Robert Dudley by her side, Elizabeth Tudor leads her retinue to London's Royal College of Physicians -- to demand its help in the raging battle against disease and pestilence. But the stalwart queen is shaken when a frighteningly lifelike effigy of herself ravaged by pox turns up in her royal coach. Elizabeth's fear that the counterfeit corpse is a harbinger of tragedy comes to fruition when ever more terrifying transgressions penetrate the very heart of her royal precincts. With the help of her Privy Plot Council, Elizabeth resolves to unmask a murderer who wears a false face and is beset by the vilest humours of the soul. But when she herself falls ill, an entire realm is caught in the grip of a treasonous conspiracy as the indomitable young monarch fights for her life, her realm, and her rightful crown.
