Createspace, United States, 2012. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.In this first installment of his Biblical Sense series, Brad Miller takes you on a read-along journey through the opening book of the Bible - one filled with tragic intra-familial strife, thrilling grain shortages, miraculous feats of precipitation, and produce-hawking serpents. A world of awe-inspiring and jaw-dropping discovery awaits, if you can get past that dud of an opening chapter. Seriously. Who d have thought that creating the universe could be so dull? The Biblical Sense series is for people who want to have read the Bible but don t want to have to read it. We don t blame you. It s not what you d call a whiz-bang action adventure, after all. Okay, we should admit that we don t think the Bible is true. But that s not the point. The fact is, a lot of people seem to live their lives according to what they think the Bible says (though we can t for a second believe a lot of folks have read it), and so we think a well-read and culturally literate person should familiarize himself with culturally and historically significant texts - no matter how mind-numbingly dull Leviticus might be. Whether you believe the Bible or not, we hope this makes reading it a little more palatable. In any case, you ll come away from this book with a genuine appreciation for exactly how deeply intertwined communal religious devotion is with rampant animal slaughter.
