Reviews

It is really an remarkable ebook that we actually have ever read through. I actually have study and i also am confident that i am going to gonna study once more yet again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 154 pages. Dimensions: 9.6in. x 7.4in. x 0.4in. In November 2009, Gen Norton A. Schwartz, the Air Force chief of staff, tasked the Air Force Research Institute (AFRI) to answer the following question: What critical capabilities-implemented by the combatant commanders-will the nation require of the Air Force by 2030? The AFRI team identified the nations vital interests: commerce; secure energy supplies; freedom of action at sea, in space, in cyberspace, and in the skies; nuclear deterrence; and regional stability. The team analyzed four future world scenarios-a peer competitor, resurgent power, failed state, and jihadist insurgency-in relation to the nations vital interests and the 12 Air Force core functions. The resulting analysis led to a synthesis of the core functions into five critical capabilities designed to meet the Air Forces strategic challenges in 2030: power projection; freedom of action in air, space, and cyberspace; global situational awareness; air diplomacy; and military support to civil authorities. This item ships from La Vergne, TN. Paperback.
