Gaskell, Retired Professional Engineer. It is the result of requests from many readers to narrow the focus to the goals of: - Becoming an outstanding consulting engineer. - Gaining a reputation as an expert in their specialty; and - Obtaining the engineering management skills needed to advance their career and make the firm stand out from their competitors. It is likely that consulting engineering firms will present this guidebook to all of their engineers as a learning guide to influence their leadership and sharpen their management abilities. It is anticipated that companies which provide products or services to engineers will present this guidebook to engineers as a Premium-Gift to promote new business and to thank engineers for their past support.
