Reviews

It in a single of my favorite pdf. Yes, it is engage in, still an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.

Not illustrated. 1827 Excerpt: .and carried two different levels, to the Conecocheague creek, both of which, Mt. i mated at the same point, say at Weaver s mill, being the heighth of my summit level. One of those surveys only, is represented on the draft, and marked as a feeder, the length of which will be not more than two miles. Descent from the summit, by the first survey, which is not represented on the draft, and which terminated in the head run, of Hetttkck s mill, but a considerable distance below his dam, is--17.22 I would approve of building a dam of six feet in height, across the creek, 111 perches above Chamber s mill, from which the water can be conveyed to the summit, and will not only give an increase of water, by the addition of three springs, one of which is large, but also avoid a very difficult part of the construction of the feeder, which arises from the very steep and rugged limestone rocks, projecting to the water edge, above the proposed dam. Beginning again at the summit, t continued my level towards Chambersburg, on the ground: on which the canal might be made, and following a natural channel leading to the creek, which is laid down in my draft. Distance to the creek, one mile and 82 perches. Descent 34.70; the soil is limestone, but appears not to approach so near the surface of the ground as on the ascending side of the summit....
