

Teaching Number in the Classroom With 4-8 Year Olds

By Robert J. Wright, Garry Stanger, Ann K. Stafford

Sage Publications Ltd, United Kingdom, 2014. Paperback. Book Condition: New. 2nd Revised edition. 230 x 186 mm. Language: English . Brand New Book. Part of the best-selling series, this book brings the principles and practice of the acclaimed Mathematics Recovery Programme to whole-class teaching. A practical, step-by-step guide to classroom instruction, the book's central inquiry-based approach assesses children's knowledge and builds on this to develop a firm foundation of understanding and confidence in mathematics. Topics covered range from beginning number and early counting strategies to multi-digit addition and subtraction right through to multiplication and division. Now printed in full colour, the new edition includes: a revised layout to aid clearer navigation, including links to other books in the series; updated tasks, activities and real classroom examples; learning trajectories for guiding instruction and tracking progress on key topics; and this book includes a new companion website with extended printable resources and demonstration videos. It is an invaluable resource for use on pre-service teacher training courses and for all primary classroom teachers and assistants, including experienced Mathematics Recovery instructors, as well as learning support personnel, primary mathematics advisors, numeracy consultants and educational psychologists. Take a look at the exciting digital...
